EDUCATION

- **Thiagarajar College of Engineering** Madurai, Tamil Nadu, India
B.E. Computer Science of Engineering
CGPA: **8.04/10**
2023 – 2027
- **The TVS School** Madurai, Tamil Nadu, India
Higher Secondary (12th)
Percentage: **94.67%**
2023
- **The TVS School** Madurai, Tamil Nadu, India
High School
Percentage: **Pass**
2021

AREA OF INTEREST

Full Stack Web Development, Data Structures and Algorithms

TECHNICAL SKILLS

Languages: Python, C, Java, JavaScript

Frameworks: Spring Boot, Flutter

Libraries: React

Databases: MySQL, MongoDB, Redis

Tools: Git, Docker, Vercel

PROJECTS

- **Recall Royale (Logic-Based Game)** – Java, Spring Boot, MySQL Aug 2025 – Sept 2025
Designed and implemented a logic-driven memory game with dynamic scoring and win-condition algorithms; built RESTful APIs using Spring Boot and integrated MySQL for persistent state management.
- **Madurai Solo Drop Taxi Booking System** – React, JavaScript, CSS, Vercel Jan 2026 – Feb 2026
Built modular React components with structured state management and dynamic form validation to streamline booking workflows.
- **CampusEats (Food Court App)** – Flutter, MongoDB, REST APIs Jan 2026 – Present
Engineered a modular food ordering system for college cafeterias with scalable MongoDB schema design; implemented API-driven order lifecycle management for users and vendors.

PROFESSIONAL EXPERIENCE

National Institute of Technology, Trichy

Research Intern

Trichy

May 2025 – Jun 2025

- Developed a MobileNetV2-SE hybrid deep learning model for malware image classification.
- Achieved 93% validation accuracy with a compact 9MB optimized architecture.
- Co-authored research paper presented at ICONScept 2025.

CERTIFICATIONS

- **Foundation Level Completed in BS in Data Science** – IIT Madras
- **Conference Presentation** – ICONScept 2025

LEADERSHIP & ACTIVITIES

- **Joint Secretary in AR/VR Club:** Led AR/VR Club initiatives; conducted AR game development workshop and coordinated multiple technical events for 100+ participants.
